GENERAL CROP OF 1920-21.

SUGARCANE MONTHLY REPORT.

Plantings of cane generally are in progress in most districts outside Trichopoly and Tanjore. The condition of the crop is fairly satisfactory. It is too early to estimate the yield.

2. The wholesale price of gingerly is reported as 35 to 38 Rs. per cavan in Coimbatore, Kottam, Ganjam, Bellary, Amalapur and Nellore, 30 to 24 Rs. in Vengalpet, Chidambaram, Kottam, Kottam, Madurai and Kaveri, and 8 to 12 Rs. in Kanyakumari, Chidambaram, South Arcot, Salem, Trichopoly, Tanjore and Tirunelveli.

Madurai, 6th February 1921.

COTTON CROP OF 1920-21—FOURTH FORECAST REPORT.

(On an average of the five years ending 1920-21, the area under cotton in the Madras Presidency has represented 2.5 per cent of the total area under cotton in India.)

The area sown with cotton in the Madras Presidency up to the end of January 1921, is estimated at 2,554,500 acres as compared with the estimate of 2,467,200 acres at the corresponding date of last year, a decrease of about 10 per cent.

5,391,200 acres have been reported as sown since the December forecast, made up of 132,400 acres of Tirunelveli, 49,900 acres of Coimbatore, 31,600 acres of Madurai, 71,200 acres of Northern and Western, and 5,120 acres of Coimbatore, and 180 acres of others. The area sown in December

and January is less than that in the previous year by 105,000 acres or 30 per cent.

3. The reduction in area is general in all the important districts and it is due partly to the abnormal fall in the price of cotton and partly to the heavy rains which interfered with sowing.

The area under irrigated cotton, mostly Coimbatore, is estimated at 121,000 acres as against 137,400 acres last year, a decrease of about 10 per cent.

4. Picking of the early sown crop in the Deccan is over. The yield is about normal. The crop is coming into the market.

Normal yields are expected only in Coimbatore, Madurai, Tanjore, Salem (irrigated Coimbatore), Kottam, Ganjam, Vengalpet, Kottam, Chidambaram, Kottam, Madurai, and the West Coast. Yields below normal are expected in the other districts.

The seasonal factor for the Presidency works out to 95 per cent of the average as against 97 per cent on the corresponding date of the previous year. On this basis, the yield works out to 417,000 bales of 490 lb. 200 against 412,500 bales on the corresponding date of the previous year. It is, however, too early to estimate the yield with accuracy as the harvest has not yet commenced in the larger portion of the area and much will depend upon the subsequent weather conditions and the loss taken by insect pests.

5. The estimated area and yield under the several varieties are given below:—

Power to
delegate
functions of
Executive
Officer.

STATEMENT OF OBJECTS AND REASONS.

The purpose of the Bill is to remove certain minor defects which have come to light since the passing of the Contonments Act, 1924. The nature of each proposed amendment is briefly explained below:—

(1) Clause 2.—The object of the proposed proviso is to avoid the adjournment of meetings of nominated boards for want of a quorum. This has frequently been found necessary.

(2) Clause 3.—The object is to enable the Officer Commanding-in-Chief, the Commandant, to intervene promptly when he considers it necessary to do so.

(3) Clause 4 and 5.—The object is to remove verbal errors from sections 75 and 77A of the Act.

(4) These lands within P.W. roads, the Local Government may only accept any property or goods or class of property or goods belonging to the territory of State for India or Central Government or any local authority. There is no provision in the Act for the acquisition from tenants of property which does not belong to the territory of State for India or Central Government. The object of the amendment is to supply this omission.

(5) Clause 7, sub-section (2), provides for the officers of revenue for the purpose of prohibition of importation any person to the acquisition of land or immovable property as is contained in the acquisition of police officers not below the rank of sub-inspector employed in the Government and authorized in that behalf by the Commanding Officer of the Cantonment. In practice, sub-inspectors in a Cantonment are not able to devote attention to this duty, as their time is fully occupied with their normal duties in connection with the investigation of cognizable cases. A sergeant of police is a suitable person to deal with such offences, including, as they often do, in British soldiers.

(6) Clause 8—in various small amendments where the work is not sufficient to justify the appointment of a whole-time Executive Officer, Assistant Secretaries are appointed by the Government, and work under the direction of an Executive Officer who is stationed in a neighbouring Cantonment and makes periodical visits. The object of the amendment is to enable Assistant Secretaries to perform duties on behalf of the Executive Officer, instead of making such long visits, as they have to do at present.

SCHEDULE

(1) All of the *Coastal Shipping Act, 1924*—The *Indian Ports Act, 1924*, with the exception of clause (a) of sub-section (3) of section 4, section 17, section 40 and section 50.

(2) *Marine Act*—The *Marine Outports Landing and Shipping Act, 1924*.

STATEMENT OF OBJECTS AND REASONS.

The Port of Vancouver has been declared under item 8 of Part I of Schedule I to the *Indian Ports Act, 1924* to be a major port and is under the direct administration of the Government of Canada. The statutory powers in respect of the port under the *Indian Ports Act, 1924* and the *Marine Outports Landing and Shipping Act, 1924*, are, however, still vested in the Government of British Columbia. It is, however, not possible for the transfer of those powers from the Local Government to the Government of Canada. It is, however, not contemplated as proposed to take over the powers of the Local Government under section 3 (1) (a), (b), (c) and (d) of the *Indian Ports Act, 1924* concerning the port health administration of the port of Vancouver as the general question of port health administration in Canada is now under the consideration of the Government of Canada.

2. The fitting of a landing-on or flying-off platform or deck on a capital ship, cruiser or destroyer, provided such vessel was not designed or adapted exclusively as an aircraft carrier, shall not cause any vessel so fitted to be charged against or classified in the category of aircraft carriers.

Article 3.

2. As from the coming into force of the present Treaty in respect of the High Contracting Parties, no aircraft carrier of 10,000 tons (10,160 metric tons) or less standard displacement, mounting a gun above 6.1 inch (155 mm) calibre shall be constructed within the prohibition of any of the High Contracting Parties.

Article 4.

An aircraft carrier must not be designed and constructed for carrying a more powerful armament than that authorized by Article IX or Article X of the Washington Treaty, or by Article 4 of the present Treaty, as the case may be.

Whereas in the said Articles IX and X the calibre of 6 inches (152 mm.) is mentioned, the calibre of 6.1 inches (155 mm.) is substituted *verbo*.

Article 5.

1. The rules for determining standard displacement prescribed in Chapter II, Part 4 of the Washington Treaty shall apply to all surface vessels of war of each of the High Contracting Parties.

2. Each of the High Contracting Parties may, however, build or acquire a maximum number of three submarines of a standard displacement not exceeding 500 tons (200 metric tons); these submarines may carry guns not exceeding 10 inch (254 mm.) calibre. Within this number, France may include one unit, already built, of 2,000 tons (2,000 metric tons), with guns the calibre of which is 8 inches (203 mm.).

4. As from the coming into force of the present Treaty is prohibited all the High Contracting Parties, on pain of no standard displacement of which exceeds 500 tons (200 metric tons) or with a gun whose 11 inch (279 mm.) calibre shall be constructed within the prohibition of any of the High Contracting Parties, except as provided in paragraph 2 of this Article.

STATEMENT OF OBJECTS AND REASONS.

The Indian Naval Amendment Act, 1928 (VII of 1928), was passed by the Indian Legislature to give effect in British India to the Treaty for the Limitation of Naval Armaments signed at Washington on behalf of His Majesty on the 15th February 1922. In order to prevent the dangers and reduce the burden imposed on competitive armaments, and to thereby forward the work begun by the Washington Naval Conference and also to facilitate the progressive realisation of general limitation and reduction of armaments, the London Naval Treaty, 1930, was signed at London on behalf of His Majesty and certain other Powers on the 22nd April 1930. This Treaty provides further limitations relating to the displacement of armaments of coastal vessels and submarines and cruisers, among other provisions. The provisions set out in the Schedule to this Bill. To enable effect to be given to the London Naval Treaty, 1930, and to amend section 4 of the Treaty of Washington Act, 1922, the London Naval Treaty Act, 1930, has been passed by the Parliament of the United Kingdom. It is now necessary for the Indian Legislature to pass separate legislation for British India. The object of this Bill, therefore, is to give effect to the London Naval Treaty, 1930, so far as British India is concerned, by removing the obstacle of the restrictions

provided therein. As the Indian Trade Amendment Act, 1923 (VII of 1923), contains no counterpart of section 4 of the Treaty of Washington Act, 1922, it is not necessary to reproduce section 4 of the Indian Trade Treaty Act, 1921.

STATEMENT OF OBJECTS AND REASONS.

By the Finance Act of 1923, a duty of four annas an ounce was imposed on silver buttons, and in order to maintain the advantage enjoyed by the Indian manufacturers using silver as a raw material, under the former duty of 50 per cent. of value on silver manufactures, the local duty was raised to 60 per cent. This increase in the duty on silver manufactures was, however, imposed only until the 31st March 1924, subject to an undertaking that the question of extending protection to silver manufactures would be referred to the Tariff Board. In accordance with that undertaking the Board were directed to enquire into the question of extending protection to the manufactures in India of all the articles included in Item No. 4933A of the Statutory Tariff as amended by the Finance Act of 1923.

2. The Board have in their Report, dated the 25th October 1926, recommended that a duty of 50 per cent. of value should be levied for a period of ten years on silver thread and wire (including so-called gold thread and wire having coats of silver), silver leaf, imitation gold and silver wire and thread, buttons and articles of a like nature. The Government of India have accepted this recommendation and clauses 2 and 3 of the Bill give effect to it.

3. The Board have made no recommendation as regards the "silver plate" and "silver novelties" all sorts not otherwise specified, no request for protection having been received from the industry concerned. It is accordingly proposed to reduce the duty on these articles to 30 per cent. of value with effect from the 1st April 1931. Clause 4 of the Bill gives effect to this proposal.

4. Opportunity has also been taken, for the sake of simplicity, to amend the words "gold thread and wire" from Item No. 121 of the Statutory Tariff. Pure gold thread and wire will be assessed to duty under "Gold manufactures all sorts not otherwise specified" in Item No. 121, and the change proposed will prevent possible confusion between "gold thread and wire" and "so-called gold thread and wire".

A Bill to prohibit the export trade of Cattle Meat.

WHEREAS it is expedient to remove the existing prohibition against the export trade of agricultural cattle and the consequent reduction of the milk supply in British India;

AND WHEREAS the Government of India in dry season has substantially contributed to the said shortage of agricultural cattle and the milk reduction of the milk supply;

It is hereby enacted as follows:—

Short title, extent and commence- ment.	1. (1) This Act may be called the Indian Cattle Protection Act.
	(2) It shall extend to the whole of British India.
Enforcement.	(3) It shall come into force on the 30 th .
	2. "Cattle" shall mean and include cows, bulfs, bullocks and buffaloes as well as their calves.
Offences.	3. Whoever exports or carries seaward the meat of cattle slaughtered in British India or carries such meat by road, rail, water or air within British India for the purpose of such export or carrying seaward, and whoever abets the commission of any of the said acts shall be guilty of an offence under this Act and shall be punished with imprisonment which may extend to six months or with fine, or with both.
	4. Export is such is not an offence under this Act to carry cattle afloat in the manner allowed for the free <i>fed</i> of passengers or crew during a voyage or during operation thereof, for the use of bona <i>fide</i> Indian troops.

Offences to be cognizable and bailable.	6. All offences under this Act shall be cognizable and bailable and shall be triable in the manner provided for warrant cases by a Magistrate of the first class.

STATEMENT OF OBJECTS AND REASONS.

India is mainly an agricultural country. Cattle are essential to the agriculturist, so in the main to the great bulk of the population. Since the introduction of the export of dry meat from India a enormous number of cattle has been slaughtered annually for the purpose of the trade. This has seriously raised the price of cattle and milk. The agriculturist finds it increasingly difficult to own a sufficient number of cattle for his agricultural purposes. The increasing scarcity of milk is no less a serious hardship upon the people in general, but the real results have been most felt in the case of infants and invalids. The great rise in infant mortality during recent years throughout the length and breadth of the country has left quite appalling. The object of this Bill is to curtail these growing evils to some extent by prohibiting export trade in cattle meat.

The following Bill was introduced in the Legislative Assembly on the 28th January 1921:—

L.A. BILL No. 10 OF 1921.

A Bill to prohibit the export of Indian Cattle.

WHEREAS it is expedient to remove the anxiety provokable caused by the shortage of cattle stock and the reduction of the

milk supply in British India; and whereas the serious trade in cattle has substantially diminished by the said shortage of milk stock and the said reduction of milk supply, it is hereby enacted as follows:—

1. (1) This Act may be cited the Indian Cattle Export Restriction, Declaration Act, 1901.

(2) It shall extend to the whole of British India.

(3) It shall come into force on the 1st day of March.

2. "Cattle" shall mean and include oxen, bullocks, buffaloes, and heifers as well as their calves.

3. Whoever exports or carries or causes cattle or carries or causes work cattle by road, rail, water or by any other mode for the purpose of such export as auring, contains, and whoever abets the exportation of any of the said cattle shall be guilty of an offence under this Act and shall be punishable with imprisonment not exceeding six months, or with fine, or both.

Explanation.—It is not an offence under this Act to carry cattle in the manner allowed for the local sale and use of passengers or crew during a voyage or for the use of hired jibs Indian troops abroad during military operations.

4. On conviction for an offence under this Act the cattle in respect of which the offence is committed shall be forfeited.

5. All offences under this Act shall be cognizable and offences triable and shall be triable in the manner prescribed for cognizable offences by a Magistrate of the first class.

STATEMENT OF OBJECTS AND REASONS.

India is nearly an agricultural country. Cattle are essential to the agricultural, as well as to the bulk of the population. Since the introduction of the export trade of cattle out of India the number of cattle has steadily declined. This has seriously raised the price of milk and meat. Consequently the agriculturalists find it increasingly difficult to purchase a sufficient number of cattle for his agricultural purposes. The export of milk is not a less serious hardship upon the people in general, but its evil results have been more felt in the case of infants, and animals and human beings. The great loss in value mortally during recent years has been quite alarming. The object of this Bill is to combat these growing evils to some extent by restricting the export trade in cattle much.

STATEMENT OF OBJECTS AND REASONS.

Assembly
Debates
Laid on
February
1933, page
275

(1) Before the enactment of the Indian Bar Councils Act (XXV, 1926) of 1926 all superior legal practitioners in India were divided into two classes, *Advocates* and *Vakil*, the latter being usually Barristers who formed a class apart, and refused to recognise each other's value. The prestige of the members of the English Bar in India was challenged in a Feroziana moved in the First Assembly to which the Government gave a sympathetic assurance, and who later appointed a committee to report into who on the subject to which it may be desirable to remove existing distinctions conferred by Statute or practice between Barristers and *Vakil*; and to make recommendations.

(2) On the 1st February 1934, the Committee drew up their Report, recommending the abandonment of Bar Councils and making suggestions for the removal of all distinctions between *Advocates* and *Vakil*, and suggested the institution of King's Counsel in India as a possible substitute for the class existing practice obtaining in some High Courts (e.g., Allahabad) of the appointment of *Vakil* as *Advocates*. Referring to this practice, they said—"It may or may not be desirable to provide for the recognition of distinguished merit of the Bar by elevation to a higher grade of practitioners. This is a question which does not properly come within the terms of our enquiry. But if it is desirable, we consider that a more suitable form of recognition such as the grant of the rank of King's Counsel, could be devised than elevation to a grade which, while it may contain a higher average of outstanding talent, would possibly be regarded as exclusively composed of mediocre practitioners." (Section 38, page 112.)

(3) A Bill constituting the Bar Councils was drafted and as *Amended*
the 25th August 1928, the late Mr Alexander Madhoojee moved *(ibid.)*
for its consideration which I opposed. Later on compromised *(ibid.)*
by deleting a clause, reconciling all dissensions between *ibid.*
Baristers and Vakil-Advocates regarding their seniority in to be *ibid.*
reintroduced into after meeting the public opinion thereon. *ibid.*

(4) As a result, on the 25th March 1927, Mr Alexander Madhoojee introduced the clause and the Legislature passed it as Act XIII of 1927 which provided among other legal provisions in the following order, namely:—

1. Advocate-General.

2. King's Counsel.

3. Baristers, making their seniority from the date of their call.

4. Advocates from the date of their admission.

(5) The inclusion of King's Counsel and giving them seniority over all Baristers was based on an assumption, then made that some Indian Baristers would be granted English Silk and that failing, the Government of India would take steps to establish a Dominion Silk as in the practice again in the countries of Crown Colonies, e.g., Ceylon and British Guiana.

Four years have since passed but that assumption has not been realized with the result that under the existing law English and Indian Baristers stand on the same level of King's Counsel though, it may be, much junior in seniority and standing to those admitted in India have become entitled to rank above them and the latter are penalized by the sole fact of their having practised in India. Thus is an anomaly never noticed, planted by the framers of the Act.

(6) It is feared that the Lord Chancellor of England who sometimes requests Baristers for Silk is unable to recommend those practising in India for that rank. The only remedy then left for giving effect to the Statute was either to delete the clause referring to King's Counsel or to institute a Dominion Silk in India open to all Advocates, whether Baristers or Vakil. The deletion of the clause would not be in accordance with the intention of the Bar Councils Commission, not indeed with the principle enshrined in the Bar Councils Act. The creation of a Dominion Silk in India appears to be the only course now possible, that the Bill is drafted to merely reversing the anomaly pointed out before. If not, it is hoped, lead to a further step in the direction of developing an independent Indian Bar in accordance with the acknowledged policy of Government.

Act III of
1872.

3. In section 2 of the said Act:—

(i) the words "either of whom professes the Christian or the Jewish, or the Hindu or the Mohammedan, or the Jain, or the Buddhist, or the Sikh or the Jaina religion" shall be omitted; and

(ii) after the words "between persons" the words "descended in British India" shall be inserted.

Amendment
of section 3,
Second
Schedule to
Act III of
1872.

4. In the Second Schedule to the said Act, for clause 2 in the Declaration to be made by the Registrar and the bride, respectively, the following shall be substituted, namely:—"I am descended in British India."

STATEMENT OF OBJECTS AND REASONS.

The laws of civilised countries provide for the contract of civil marriages by persons who may so desire. The disability to contract such marriages in India is merely territorial and there is no reason why a similar law should not be enacted for this country. The enactment, if passed, would be merely optional and leaves intact the existing personal laws which control the performance of marriages.

The reasons which have induced me to draft this Bill are as follows:—

Mr. Henry Mehta as Law Member of the Governor-General's Council had introduced a Civil Marriage Bill, but, as the Government were then preoccupied with an amendment to prescribe a civil form of marriage applicable only to Europeans by whom they were moved for the enactment of a similar law to enable them to contract marriages, its provisions were so embodied in the Bill which became Act III of 1902.

In 1900, the late Mr. Bhopendra Nath Sanyal and later on I had also introduced a similar Bill, but its provisions were eventually incorporated into those of Act XXX of 1900.

The Islands State have recently introduced a Civil Marriage Bill, while the Laws of other Indian States are understood to provide for the performance of such marriages. The advantages of the system, if carried, are obvious. The Bill would enable persons subject to polygamous marriage laws to contract monogamous marriages and remove the inequality in the matter of divorce. It would elevate the status of women. These benefits have already been secured to the Hindus, Buddhists, Sikhs and Jains by Act XXV of 1913, and there is no reason why the benefit that that Act confers upon the Christians should not be extended to other communities who might as regards marriage be equally brought under the law enacted in the Indian Marriages Act. A provision to that effect has not been inserted in the Bill, but it can be added at a later stage if public opinion favours it. The absence of a civil marriage law tends itself to perpetuate and intensify conditions which it is the policy of the State to prevent. It was so observed by Sir Henry James who advocated the establishment of a non-convert marriage law in order to prevent the abuses resulting from such conversions (Riverviews Imperial Council, dated 21st November 1908, pp. 485, 486).

To sum up then the advantages of such marriage are as follows:—

1. Such marriages are recognised and provided for by the laws of all united countries, and it is possible to contract such marriages outside the territorial limits of India. The desirability is, therefore, purely territorial, and patriotic Indians are naturally anxious to remove all such disabilities from their way.
2. The Bill is monogamous in its policy and would result in introducing monogamy where polygamous marriages alone are at present possible.
3. It would prevent artificial inequalities resulting from the inequality of marriage.
4. It would give a wider field for selection and thus ensure a happier domestic life.
5. It would introduce a greater equality in marriage by dispensing with the subscription of a declaration which every desiring to marry under the existing Act has to subscribe to not without considerable mental reserve.
6. It would tend to the abolition of the Indian caste system at the same time involving with their personal religion.
7. It would give the wife a more assured position and enable her to exercise her right of divorce which may not be possible at present under her personal law.
8. And being mainly optional it touches upon no one's rights, but merely prescribes a form to those who, while desiring to escape from the thralldom of their religious creed, do not wish to renounce it.

It is believed that, with the growing strength of the national sentiment, such a Bill has become a public desideratum, and it has therefore been decided to introduce it in the Central Legislature.

■ S. GOUD.

The following Bill was introduced in the Legislative Assembly on the 27th January 1901:—

L.B. BILL No. 41 OF 1901

A Bill to abolish the punishment of death for offences under the Indian Penal Code.

Whereas it is expedient to abolish the punishment of death in British India, which may be inflicted in pursuance of any law passed under the Indian Penal Code; it is hereby enacted as follows:—

1. (1) This Act may be called the Abolition of Capital Punishment Act, 1901.

(2) It extends to the whole of British India, including British Rajpootana and the North-West Frontier.

(3) The provisions of this Act shall apply to all persons to whom the provisions of the Indian Penal Code apply.

(4) It shall come into force on the 1st January 1902.

2. Notwithstanding anything contained in the Indian Penal Code whereby Courts are empowered to pass a sentence of death by way of punishment, no Court in British India shall pass any sentence of death for any offence committed in or outside British India, by any person to whom the provisions of this Act apply.

Exception.—The provisions of this Act shall not affect the provisions of sections 132 of the Indian Penal Code or, of the Indian Arms Act, 1881, or any other law or Statute passed either by the Indian Legislature or the British Parliament, under which death penalty may be inflicted, and which affects the discipline or maintenance of His Majesty's military, naval or air forces in India.

STATEMENT OF OBJECTS AND REASONS

Capital punishment has been wholly or partly abolished in many of the progressive countries of the world. Australia, Belgium, Denmark, Holland, Italy, Norway, Portugal, Sweden and a few States in America have already done away with death penalty. Public opinion in England, and in many other countries is also coming round to the view that capital punishment is a relic of barbarism, and is not suited to the social needs of the present time. The plea that capital punishment acts as a deterrent, and exerts a restraining influence, is not borne out by the experience of modern States.

The arguments in support of the abolition of the death penalty are shortly as follows:—

It demonstrates those who inflict it; its barbarous has the effect of encouraging the public sentiment. In numerous killing it is incompatible with the sanctity of human life; sometimes innocent persons have been sentenced to death, and in such cases no reparation is possible. Science has now proved that execution is often committed under the influence of a frenzy.

STATEMENT OF OBJECTS AND REASONS.

Under the Hindu law the mere elopement of a woman is the prevention of a valid marriage. It was so necessary that this result was obtained by the practice of Nigay, which provided the wife with a companion when the husband himself was feeble or impotent. Another practice has fallen into disrepute, it is necessary that wives married to such persons should obtain relief; and, since if they are no longer married Nigay they should be free to select the only legitimate course open to them of removing their children from the bondage of such marriages. This is all the more necessary, since under Hindu law both the husband suffering from any of those disabilities and his wife are excluded from all rights in property. It is, therefore, hoped that this measure will give the Hindu wife some relief in which she is so deeply entitled. The Bill is not intended to introduce any innovation in the Hindu law of marriage. If passed, it will have the effect of merely restoring the old law that down by Sarsul and Vishnu which Hindus are of the most sacred authorities on Hindu law.

"Hindu: XII—8. The man must undergo an examination with regard to his virility; when the fact of his virility has been placed beyond doubt, he shall obtain the munda (but not otherwise).

It. 16. For the wife of one who kills his mother, or whose mother is devoid of strength, though they may have discharged their marital duties, another husband must be procured after she has waited for half a year.

It. 18. Women have been created for the sake of propagation, the wife being the field, and the husband the giver of the seed. The field must be given to him who has seed. He who has no seed is necessary to possess the field.

It. 21. When a bridegroom goes abroad after having espoused a maiden, let the maiden wait till her mother have passed three Ganges, and then choose another bridegroom.

It. 27. Mahavee, son of ascetic, impotency, sickness, to have forsaken his relatives (including such a disease or hereditary disease, and deformity); these are the faults of a mother.

It. 30. When her husband is dead or dead, when he has become a religious ascetic, when he is impotent, and when he has been expelled from caste: these are the five cases of legal widowhood, in which a woman may be justified in taking another husband."

The following Bill was introduced in the Legislative Assembly on the 27th January 1937:—

L.A. 1313, En. 25.07 1938.

A Bill further to amend the Code of Criminal Procedure, 1926.

- WHEREAS it is expedient to amend Chapter XI of the Code of Criminal Procedure, 1926, relating to the powers of Magistrates to issue temporary orders in urgent cases of nuisance or apprehended danger, and to provide for appeals in respect of such orders; and it is hereby enacted as follows:—
1. (4) This Act may be called the Code of Criminal Procedure (Amendment) Act, 1937.
 - (5) It shall extend to the whole of British India, including the Scottish Provinces.
 2. In section 144 of the Code of Criminal Procedure, 1926,—
 - (i) after sub-section (3), the following sub-section shall be inserted, namely:—

(3A) Notwithstanding anything contained therein, no order under this section shall be made by a Magistrate so as to restrict the right of any person or persons to assemble, attend, or take part in any public or political meeting, procession, or other demonstration, unless the Magistrate feels in evidence duly tendered that such direction is necessary to prevent obstruction, annoyance, or injury to any person lawfully engaged, or danger to human life, health or safety, or a disturbance of the public tranquillity, or a riot, or an affray.

Provided that—

 - (a) no ex parte order shall be passed by a Magistrate in such cases without evidence duly recorded; and
 - (b) no such order, if made ex parte, shall remain in force for a longer period than forty-eight hours; and
 - (c) after sub-section (5) the following sub-section shall be inserted, namely:—
 - (7) An appeal shall lie from an order passed under sub-section (3) to the Court of Session.

STATEMENT OF OBJECTS AND REASONS

Reasons.—Cases connected with the use of the provisions of section 144 of the Code of Criminal Procedure, 1926, for the purpose of imposing restrictions of all kinds on political workers and propagandists with the object of curtailing, or suppressing political agitation, or other legislative activity, wherever and whenever the authorities deem fit to do so, have disclosed the need for a modification of the law of preventive action in emergencies which was originally embodied in this section solely for the benefit of the community, and only in urgent cases of nuisance or apprehended danger.

3. Section 144 of the Code of Criminal Procedure constitutes an entire chapter (XI) whose object is, in the words of the Code, to provide for "Temporary Orders in Urgent Cases of Nuisance or Apprehended Danger." The words of the section

work from the very nature of the entirely temporary nature contemplated, made very general, and the discretion left to the Magistrates for the purpose was also correspondingly wide. But the extraordinary and unforseen applications of the section that have taken place in recent years on such a large scale for the purpose of suppressing political agitation, or other legitimate activity, are matters which could not have been foreseen, and constitute a violation of the provisions of the section. In any case, the contents of the terms of the section as so to clearly define and control the power of Magistrates, and to provide adequate safeguards for the protection of the rights of the public and of individuals, is clearly called for. The present Bill is intended to effect this purpose.

Clause 2 seeks to insert a sub-section (2-4) of section 144 providing that in cases where orders under the section are restrictive of the rights of free speech, assemblies, or public meetings, the orders shall be issued as executive orders, and that no such orders shall have force for more than forty-eight hours from the passing thereof. The clause also provides that all orders made in respect of cases under sub-section (1) of the section shall be appealable to the Court of Sessions.

1. This Act may be called the Indian Telegraph (Amendment) Act, 1935.

XIIIa

2. Clause (3) of sub-section (1) of section 5 of the Indian Telegraph Act, 1885, shall be omitted.

XIIIc

STATEMENT OF OBJECTS AND REASONS.

The provisions of section 5 of the Indian Telegraph Act, 1885 (Act XIII of 1885), put an unnecessary restriction on the freedom of communicating information; and recent events have shown how the provisions have been misused. The Bill is therefore intended to omit clause (3) of sub-section (1) of section 5.

Report of the Select Committee on the Madras Motor Vehicles Taxation Bill (No. 2 of 1931)	11
---	----

REVENUE
ACT No. XIV of 1930—Madras Taxation—Municipalities.

Bill to be considered by the Council of the Governor of Fort St. George assembled for the purpose of making Laws and Regulations.

Under S.O. 41 of the Standing Orders of the Madras Legislative Council, the following report of the Select Committee on the Madras Motor Vehicles Taxation Bill together with the Bill as amended by the Select Committee is published for general information:—

BILL No. 2 OF 1931.

A Bill to abolish the levy of all tolls and of all local taxes on motor vehicles and to impose a provincial tax on such vehicles.

To
THE HONOURABLE THE LEGISLATIVE COUNCIL
OF THE GOVERNOR OF MADRAS.

We, the undersigned Members of the Select Committee, appointed to consider the Madras Motor Vehicles Taxation Bill (Bill No. 2 of 1931), have the honour to submit the following report.

IV-1

2. The Bill was published in English in the *Port St. George Gazette* on the 29th January 1931.

3. The Select Committee met on the 29th, 12th and 13th February 1931 and subjected the provisions of the Bill to careful scrutiny and as a result of such scrutiny have made several changes of which the following are the more important.

4. Though the provisions relating to the levy of tolls in the Madras City Municipal Act, the Madras District Municipalities Act and the Madras Local Boards Act have been repealed by this Bill, the Committee have considered it desirable to insert in the Bill a specific provision against the levy or collecting, save as provided in the Bill, of any toll, by the Government or any local body after the commencement of this Act.

5. The Committee consider that the collection of the tax should be in the hands of an *ad hoc* authority appointed by the Local Government and not in those of the registering authority under the Motor Vehicles Act, 1914. They have therefore deleted the definition of a registering authority in clause 2 and substituted instead, that of a licensing officer, and have made corresponding changes in other clauses of the Bill.

Clause 2.

6. (1) As the expressions 'registered owner' and 'trailer' are used in the body of the Bill, definitions of these have been inserted in clause 2.

(2) As the Select Committee has made the tax under this Bill payable quarterly instead of half-yearly, the definition of a 'quarter' has been added.

Clause 5.

7. The Select Committee consider that the liability of the registered owner of a motor vehicle for the payment of the tax due thereon should be specifically recognized and have therefore substituted the words "every registered owner or person having possession, custody or control of any taxable motor vehicle" for the words "every person having possession, custody, or control of any taxable motor vehicle."

The Committee have decided that the payment of the tax for each quarter should be made in advance within the first fourteen days of the quarter or within the first fourteen days within which the motor vehicle came to be kept or used within the Presidency of Madras whichever is later. As regards motor vehicles which come to be kept or used in the Presidency of Madras less than fourteen days at the end of a quarter, the Committee have thought it expedient to exempt such cars from the tax payable for that quarter, altogether.

Clause 6.

6. The Committee consider that the failure to display the license in a conspicuous place in a motor vehicle need not be made an offence and have accordingly deleted the penalty prescribed for it in sub-clause (1). The language of sub-clause (2) has been modified so as to make it clear that a motor vehicle could only be stopped by a Police officer in uniform and that too just for sufficient time to enable him to satisfy himself either that a license has been granted or that the tax has been paid or is not payable at all. The penalty for failure to stop has been reduced from Rs. 100 to Rs. 50.

Clause 7.

7. The penalty for failure to pay the tax has also been reduced from Rs. 100 to Rs. 50.

Clause 8.

8. The Committee have considered it desirable to extend the benefit of the proviso in sub-clause (1), to all motor vehicles and not merely to motor bicycles.

The Committee have re-defined the remaining sub-clauses of the clause and in so doing, have made the following, among other alterations, in the procedure of sale of a motor vehicle seized for non-payment of tax:—

(1) If the owner of the vehicle pays the tax and the charges of seizure and detention within 15 days of his receipt of notice of seizure, the vehicle will be released and no penalty shall be payable.

(2) If it is only if such tax and charges are not paid within 15 days, a penalty shall be payable.

(3) The maximum penalty will be only 75 per cent of the tax payable and not the full tax as in the Bill as introduced.

The Committee have deleted the provision in sub-clause (3) (b) by which in the absence of a claim within six months, the surplus proceeds of the sale of a motor vehicle become forfeited to the Local Government.

Clause 10.

11. The Committee have also re-drafted this clause and in doing so, have departed from the original clause in the following particulars:—

(1) Instead of the words "three years immediately preceding the year in which this Act was passed" the words "three years ending the 31st March 1930" have been substituted.

(2) It has been made clear that, in ascertaining the amount payable to each local body,—

(i) amounts which had been left uncollected and which could have been collected should be taken into account in calculating the triennial income of the local bodies;

(ii) amounts which the local bodies would have to pay to other local bodies on account of collections made on their behalf and left to be adjusted later, should also be taken into account;

(iii) credit should be given for the vehicle tax payable on vehicles owned by the local body or kept by its employees in respect of which exemption had been given, by the local body during the last three years.

The Committee have further provided that, if in any year the amount actually collected falls short of the amount to be distributed, it shall be distributed proportionately and that out of the surplus accounts if any collected in any following year, the deficit should be made good.

Clause 11.

12. The Committee have provided that the notification under this clause shall be in force until it is repealed, revoked or modified by a resolution of the Legislative Council and that afterwards, it shall take

effect in the form in which it has been approved by the Legislative Council.

Clause 15

15. The Committee have restricted the power of the Local Government to levy tolls under the Indian Tolls Act, 1911, to roads or bridges which they make or repair at their expense after the commencement of the Act.

Clause 16 to 18.

16. The Committee have provided that the rules made under clause 16 should be laid on the Table of the Madras Legislative Council. As regards rules made under clause 17 which refers to the amendment of Schedule II, the Committee have gone further and provided that they shall be laid to draft before the Legislative Council and shall take effect only after approval by it and in the form in which they were approved by it.

Schedule II.

15. The classification of motor vehicles in Schedule II has been altered with reference to the opinion of those who are experts on the subject and the rules have also been altered in consultation with all interests concerned.

16. The Committee consider that the rates prescribed for the motor vehicles referred to in Clause 4 of Schedule II should, during the first six months of the operation of the Act, be reduced to three-fourths of the rates mentioned in the fourth column of Schedule II. They have, however, not thought it necessary to incorporate a provision to this effect in the Bill itself, as the hon. the Chief Minister has, on behalf of the Government, consented to follow this suggestion in issuing the necessary notification under clause 4 of the Bill.

17. It is unnecessary to refer to the other alterations made in the Bill. A copy of the Bill as amended by the Committee is annexed.

18. The Committee consider that the amendments made in the Bill are so important that the Bill as amended by them should be republished. They however recommend that the Bill should be brought up before the Legislative Council as early as possible and that its

provisions should become law and be brought into effect on the 1st April 1931.

MINUTES OF DEBATE.

I.

The ryois ought not to be charged with any tax or fee whatever for his ryois, obligation ought to be abolished. The Bill achieves this purpose. Therefore I welcome it and I give my fullest support to it. I am also of opinion that persons owning bicycles and motor-bicycles—with or without side-cars—stand on the same footing as the ryois. In most of the cases they keep cycles or motor-bicycles out of sheer necessity. I should think that the rates they are paying at present are sufficiently high. I cannot therefore agree to raising of rates in these cases. In other respects I agree with the Bill as drafted now.

C. SATTANARAYANA CHUDARI.

II.

I approve of the report of the select committee, with the following observations.

With reference to Items 6 and 11 in column 4 of Schedule I relating to the Madras District Municipalities Act 1920, I may point out that under section 270-D of the Act, cart stand fees are recoverable as unpaid tolls under section 112 of the Act. It is now proposed to omit sections 119 to 124.

Police assistance may be necessary for the recovery of the cart stand fees under section 270-D and section 355 (c) of the Act is now proposed to be omitted.

I suggest that Items 6 and 11 in column 4 of schedule I may be so amended as not to militate against section 270-D of the District Municipalities Act 1920.

If no amendments can be incorporated at this stage they may be brought up in the Legislative Council at a later stage.

A. V. BHANUJI RAO.

III.

I approve of the Select Committee's report on the Bill as re-drafted with the exception that in Clause 10 in regard

to the distribution of the tax to local bodies the basis on which such distribution shall be made, shall be on the amount received from tolls and vehicle tax, and not 'or'. If the words 'Receipts from tolls or vehicle tax' are to continue, then the Clause should be amended as follows:—
 'The receipts from tolls or vehicle tax or such amount as each local body has actually spent on its roads during the three years ending 1930'.

Further I consider that the distribution ought to be on the period ending 31st March 1931 and not 1930 for the reason that the last three years would give a better average of the tolls and vehicle tax as prior to these three years the use of vehicles had not developed to the extent to which that traffic has developed during the past three years. Further, no difficulty will result from this date being made 31st March 1931 as the figures for 1930-31 will be available by the 15th June 1931, each municipality being required to send its figures for the year by that date and it would be open to Government to give a tentative sum until that date. The fixing of the period 1930 will affect adversely those municipalities where the toll and vehicle revenue have gone up enormously in 1930-31 resulting in these bodies having to maintain their roads to the standard required by the increased motor traffic.

As regards clause 10, the Select Committee has been reasonable enough to include that arrears which have been left uncollected and which could have been collected should be taken into account in calculating the triennial income of the local bodies. I therefore suggest that toll revenue which should have gone to a local body during the transition but was not so given should be included in calculating the income of the local body.
